

RADAR/LIDAR OPERATOR COURSE

The Department of Public Safety will be hosting a 32 hour, RADAR/LIDAR operator course for other law enforcement agencies in Selma, AL at the ACJTC on Dec. 8 thru 11. Class size will be limited to 20 slots on a first come first served basis. Meals and lodging will be provided by the ACJTC. Price \$300.00.

This course will improve your knowledge of RADAR/LIDAR speed measurement devices and give you the needed information and ability to present your case in a professional manner.

You will learn the different scientific principles behind these devices and their proper application within the overall speed enforcement program. In addition, we will cover the various aspects of equipment use, such as, testing and verification protocols, case law, health issues, and many other operational considerations.

Through practical exercises using a variety of different units, you will be exposed to the latest technology in the field. You will also take part in exercises that emphasize the need for complete equipment familiarity on the part of the operator.

Topics include:

- Time, distance, and speed measurement
- Scientific principles of Radar
- Operational considerations
- Case law and administrative rules
- Preparations for court presentation
- Theories of adult teaching and learning
- Practical exercises and written exams
- Classroom presentations

Equipment needed:

- RADAR/LIDAR Manual/Department policy (If one is available)
